

NUCLEU - SOACT III Programme

PN 09-420-101 Models of job creation / job destruction and the impact on quality of employment

Phase I Job creation / job destruction process: theory and measurement

Phase II Comparative analysis of sources, methods and instruments used in the job creation / job destruction measurement process. SWOT analyze of the selected models

Coordinator: **PhD Vasilica Ciucă**

PN 09-420-102 Models and forecasts on the participation in the labor force in Romania

Phase I Participation in the labor force in Romania - development, causes, effects

Phase II Analysis of patterns of participation in labor force - type and description

Coordinator: **PhD Vasilica Ciucă**

PN 09-420-103 Spatial econometric methods and techniques on local labor market analysis, focused on fostering interregional competition

Phase I Fundamental approaches of spatial econometric technique and theory - differences and specific approaches vs. traditional models

Coordinator: **PhD Cristina Lincaru**

PN 09-420-106 Modeling the dynamics of earnings and labor cost

Phase I Types of models used in modeling the dynamics of earnings and labor cost

Coordinator: **PhD Nicolae Cătănicu**

PN 09-420-201 Methodology for assessing the impact of policies on reducing poverty and social exclusion

Phase I Determinants of poverty and social exclusion

Coordinator: **Cristina Stroe**

PN 09-420-203 Public policy regarding the protection of children in difficulty - an integrated component for poverty reduction and social inclusion increase

Phase I Theoretical and methodological research benchmarking on the protection system of children in difficulty

Coordinator: **PhD candidate Bertha Sănduleasa**

PN 09-420-204 Qualitative methodology for the assessment of the family policies role in ensuring a balance between professional and family lives of women in Romania

Phase I Diagnostic analysis on the evolution of family policies and the protection of motherhood in Romania compared to other EU Member States

Coordinator: **PhD candidate Aniela Matei**

PN 09-420-301 System of indicators and methodology to investigate the relationship between social capital and labor market participation

Phase I Theoretical and methodological background for study of social capital and its relationship with labor

Coordinator: **PhD candidate Ana Zamfir**

PN 09-420-302 Forecast methodology regarding the lifelong learning need of human capital

Phase I Analysis of the Romanian lifelong learning in the human capital development

Phase II Current development level of human capital in Romania

Coordinator: **Liliana Greu**

PN 09-420-401 Gender roles and stereotypes on the labour market

Phase I Conceptual framework: gender identity, occupational identity and occupational stereotypes

Coordinator: **PhD candidate Cristina Mocanu**

PN 09-420-403 Models and techniques for assessment of equal opportunity and access

Phase I Conceptual framework. Inventory and in-depth analysis of equality data

Phase II Comparative analysis of models for gathering equality data

Coordinator: **PhD Gabriela Predoșanu**

PN 09-420-404 Methodology for investigating the gender wage gap

Phase I Theoretical considerations. Analysis of trends in gender wage gap

Coordinator: **PhD Speranța Pîrciog**
