

## **SELF-ASSESSMENT REPORT**

October 2002 - October 2007

### **1. Authentication data of the research and development unit**

**1.1 Name:** NATIONAL RESEARCH INSTITUTE FOR LABOUR AND SOCIAL PROTECTION – INCSMPS

**1.2 Legal Status:** Romanian legal entity, operating as a national institute of CDI, coordinated by the Ministry of Labour, Family and Equal Opportunities

**1.3 Establishing Act:** GD 1305/1996, subsequently amended by GD 1773/21.10.2004, registered with the Trade Register under no. J/40/1900/1997, unique registration code R9254436.

**1.4 Registration number in the register of potential contractors:** 55

**1.5 General manager:** Dr. Vasilica CIUC

**1.6 Address:** 6-8 Povernei Str., sector 1, Bucharest

**1.7 Phone number:** 021 3124069, fax 021 3117595, website [www.incsmpls.ro](http://www.incsmpls.ro), mail: [silviaciuca@incsmpls.ro](mailto:silviaciuca@incsmpls.ro)

### **2. Area of expertise**

**2.1 According to the UNESCO classification:** 52 demography, 53 economics, 63 sociology

**2.2 According to the CAEN classification:** 7320

### **3. Research and development unit status**

3.1 The mission of the research and development unit, directions of research, development and innovation (max. 1000 characters)

**INCSMPS' mission, according to GD no. 1773/21.10.2004 is:**

- conducting studies and research with theoretical, fundamental and practical applicability in the field of national labor market, demography, regional development, continuous education, social dialogue, human resources management, inclusion and exclusion, poverty and disadvantaged groups, social protection and social services in Romania;

- participation in the rationale, implementation and monitoring of specific sector development strategy, and specific action programs in order to achieve with priority the scientific and technological objectives established by the national programs of scientific research and technological development.

According to the Internal Rules of Organization and Functioning of the Institute- approved through Government Decision GD Nr.1773 of 21 October 2004, INCSMPS has the following roles:

- A.** It conducts research, development and innovation activities;
- B.** Performs specialized scientific services - training, expert advice, consultancy, specialized services provided to businesses, technology transfer services, editing and printing scientific papers, organization of scientific meetings/ events;
- C.** Performs specific tasks of national interest, established through government regulations (national pension recalculation according to GD no. 1550/2004 and GD no. 105/2005 and registration of employment records or other documentation in addition to data relating to periods of probation of the contribution made in the public pension system in Romania, before 01.04.2001, in accordance with Law no. 19/2000 as amended and supplemented pursuant to Government Decision no. 1768/2005);
- D.** Trains and forms CDI human resources in the Institute's specific domain of activity.

### **3.2 Valorization of the research, development and innovation results and their degree of recognition (max. 1000 characters)**

- The main way to exploit the results of the research and development is the Institute's participation in the preparation by the MMFES (Ministry of Labor, Family and Social Protection) of policy documents, strategies and action programs, documents related to the European Union (*National Employment Strategy, Lifelong Training Strategy, the National employment action- NAPE, Inclusion Memorandum - JIM*, Joint Memorandum on employment Policy - JAP, regional action plans for technical and vocational education PRAI).
- The research results were submitted to the minister, secretaries of state, general managers - where appropriate - the Ministry of Labour, Family and Equal Opportunities, the National Employment Agency Employment, the National House of Pensions and Other Social Insurance Rights as direct beneficiaries;
- also, the results of the research conducted by the Institute led to the elaboration of employment and vocational training policies, initial training for professional and technical education policies, minimum wage policy, pension policy.
- the research and development activities of the last five years have helped increase the research excellence of the staff, which was validated by the success rate in national competitions for research funding. It is to be mentioned herein the success rate of 75% in CEEX competition

organized by M.Ed.C in 2005, 100% in 2006 and 75% in 2007, and underlined the fact that the visibility of the Institute has increased, aspect measured by direct requests to participate in achieving projects of international programs of the EU and other international financing organizations.

The knowledge capital acquired enables the Institute to provide an interface with the network of excellence in socio - economic research in the European research area; the Institute's activity covers almost the entire theme of the 8<sup>th</sup> Priority of FP7 Framework Program (the Institute entered in the construction of eight research partnerships with European institutions in order to carry out the proposals for 2007 competition).

### 3.3 Financial standing - debts to the state budget:

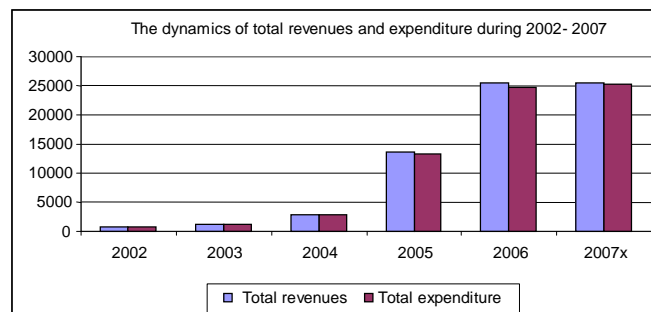

#### 3.3.1 The dynamics of the financial standing

mii lei

	2002	2003	2004	2005	2006	2007 <sup>x</sup>
<b>Total revenues</b>	766,7	1143,4	2821,1	13630,0	25385,0	25550,0
<b>- out of which, from the RDI activity</b>	752,2	1130,9	1560,0	2433,0	4942,0	7234,0
<b>Total expenditure</b>	756,3	1123,4	2776,1	13388,0	24876,0	25167,0
<b>Financial result</b>	10,4	20,0	45,0	242,0	509,0	383,0

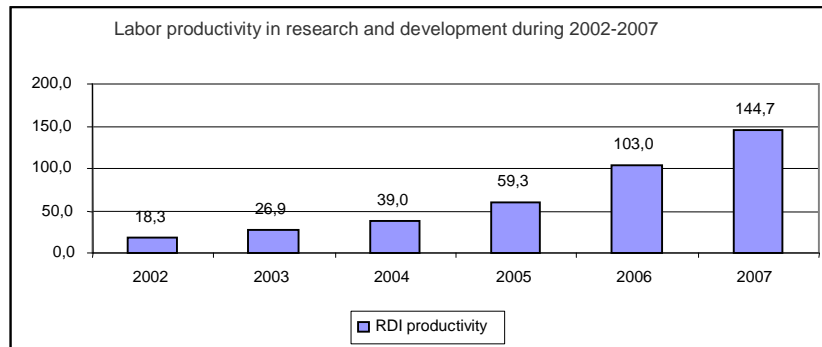

<sup>x</sup> expected

It is notable that the Institute's revenues increased on a highly dynamic trend, being 33 times higher in 2007 compared to 2002. The financial result increased year by year, as in 2007 was over 36 times higher than in 2002, indicating increased profitability. These favorable results were recognized in 2006 by the Chamber of Commerce and Industry of Romania, when our Institute was granted **1<sup>st</sup> Place in the National Ranking of Research Development and High Tech Companies.**

The **research and development incomes had also increased 10 times** in the period 2002- 2007, which reflects the quality of management and its efficiency. Labour productivity in R & D activity also increased in the period 2002- 2007 of about 8 times.

### 3.3.2 Liabilities to state budget - not registered

## 4. Primary performance criteria

### 4.1 Scientific/ technical papers published in ISI journals

4.1.1 Number of scientific papers: **5<sup>1</sup>**

4.1.2 Cumulative ISI score

4.1.3 Number of citations in ISI journals: **9<sup>2</sup>**

List of scientific papers and citations is presented in Annex 4.1

Score for chapter 4.1: **195**

4.2 Patents - not applicable

4.3 Products and technologies resulted from research, based on patents, certifications or own innovations and prospective studies and technologies and services from research and development, ordered by the beneficiary

4.3.1 Number of products, technologies, studies, services: **315**

Crt. No.	Category	Year	No. of results	Score
1	<b>Products, technologies, research resulted from international and national projects ordered by beneficiaries</b>	2003	7 (from 1 to 7)	140
2		2004	16 (from 8 to 23)	320
3		2005	31 (from 24 to 54)	620

19		<b>Total</b>	<b>71</b>	<b>1420</b>
20	<b>TOTAL</b>	<b>315</b>	<b>6300</b>	

During 2002- 2007 can be observed a strong upward trend of the Institute's involvement in providing research products to beneficiaries (methodologies, forecasts, monographs, models, systems of indicators, impact assessments, social diagnosis, etc). The lower values registered in 2007 are due on the one hand to the deadlines that are not included in the period covered by the assessment and on the other hand to the orientation to research projects of excellence that require a tremendous commitment of the researchers in meeting their objectives.

*The detailed list of products, services, technologies, grouped by years, is presented in Annex 4.3.*

**Total score Chapter 4: 6495**

## 5. Secondary performance criteria

5.1 Scientific (technical) papers published in journals without ISI, but rated B and B +

5.1.1 Number of papers: **27**

## National Research Institute on Labour and Social Protection INCSMPS

6-8 Povernei Str., sector 1, Bucharest  
Tel: 3124069 e-mail: incsmpls@incsmpls.ro

	2002	2003	2004	2005	2006	2007
Number of papers	0	1	0	4	13	9

Note that despite the fact that the socio- economic B and B+ listed publications are relatively few in number, stands out the Institute's researchers concern to increase, year by year, the number of appearances in national or international publications listed B and B +. The decrease registered from 2007 over 2006 is due to the period taken into consideration for the evaluation, most projects having completion at the end of the year, therefore a larger volume of publications will be counted in the IV<sup>th</sup> quarter of the year.

*The list of papers, grouped by years, is attached in Annex 5.1*

In addition to these publications, the Institute researchers published the results of their research in other journals and books, amounted for the period 2002- 2007 a **total of 91 appearances.**

**Total score chapter 5.1: 140**

### 5.2 Scientific papers presented at international conferences with program committee

#### 5.2.1 Number of presented communications: **80**

	2002	2003	2004	2005	2006	2007
Number of communications	3	4	4	8	28	33

The structure of the papers communicated during this period highlights that the Institute's concern to disseminate the research results and to be known/ recognized by the international scientific community has increased.

*The list of communications, grouped by years, is attached in Annex 5.2.*

Besides these events, the Institute participated in a number of **28** events with international participation and **52** national events. In addition, every year, the Institute has organized annual scientific sessions with the theme of the latest issues of concerns of the international scientific community.

**Total score chapter 5.2: 400**

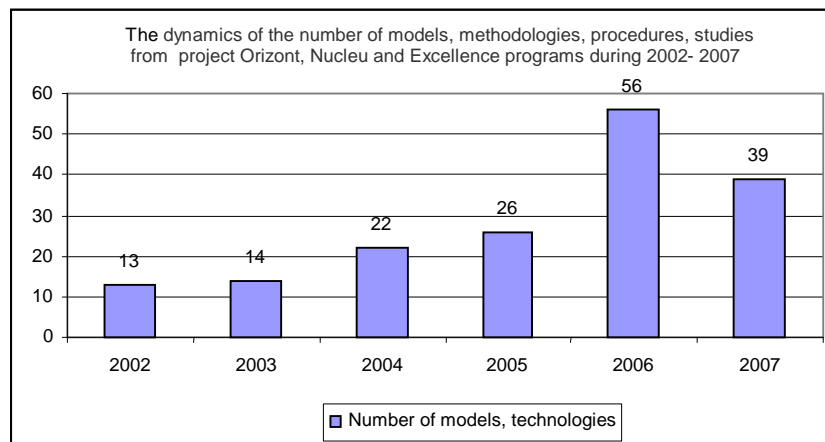

### 5.3 Physical models, experimental models, working models, prototypes, norms, procedures, methodologies, regulations and new or improved technical plans, realized through national programs carried out or ordered by the beneficiary

**5.3.1 Number of models, standards, procedures, etc.: 170 structured as follows:**

Crt. No.	Criteria	Year	No. of results	Score
1	<b>Models, methodologies, procedures, studies etc. obtained through the ORIZONT and NUCLEU programs</b>	2002	13 (from 1 to 13)	65
2		2003	14 (from 14 to 27)	70
3		2004	22 (from 28 to 49)	110
4		2005	20 (from 50 to 69)	100
5		2006	26 (from 70 to 95)	130
6		2007	21 (from 96 to 116)	105
7		<b>Total</b>	<b>116</b>	<b>580</b>
8	<b>Models, methodologies, procedures, studies, etc. obtained through the Research Excellence program</b>	2005	6 (from 1 to 6)	30
9		2006	30 (from 7 to 36)	150
10		2007	18 (from 37 to 54)	90
11		<b>Total</b>	<b>54</b>	<b>270</b>
<b>TOTAL</b>			<b>170</b>	<b>850</b>

Every year, the Institute has developed a growing number of models, methodologies, studies in the frame of Orizont and Nucleu programs and of Research Excellence. Slightly lower values of 2007 are due to the stages of the analysis, in fact the number of models, methodologies, studies that are to be achieved by the end being almost equal to the one made so far in 2007.

*The list of models, norms, etc., grouped by years, is shown in Annex 5.3.*

2007	50	14

In the period 2002- 2007, there is a increasing concern of the Institute for its human resource not only quantitatively but also qualitatively. The number of staff increased by 22% in the period under review and the number of PhDs by 75%. In this context, the ratio of total number of doctors and staff has improved during the period, standing at 28%.

The above tables show the concern of the Institute's management to attract young people for the research activity and to stimulate their professional performance through PhD graduation.

The Institute has an annual training plan, annex to the collective agreement and monitors and stimulates the participation of all researchers to increase their level of professional formation through training courses abroad, organizing courses to improve communication skills in foreign languages with certification, etc.
